

## Scalby Digital Library Overview: eplatform

<https://scalbyschool.eplatform.co.uk>

ePlatform is a library lending system designed to make the borrowing and reading of eBooks (an electronic version of a printed book) AS well as the listening of Audiobooks, simple and enjoyable.

Through ePlatform library users are able to browse for, borrow and read eBooks and Audiobooks anywhere, anytime, on multiple devices.

### What do you need to borrow eBooks?

A valid student username & password  
Internet access  
A compatible device to read an eBook on or listen to an Audiobook (a computer, tablet or smartphone) within a modern web browser (eg. Google Chrome, Firefox, Internet Explorer 10, Safari etc.)

### How do you read eBooks or listen to Audiobooks?

The simplest way to read eBooks or listen to Audiobooks is to access the free ePlatform app. Through this app library users can easily find the library, then access all of the titles and read or listen to them via their browser – even if offline, all via their a tablet, smartphone or other device.

The app can be accessed on an iPad, iPhone, Galaxy and most other devices.

1. Download the ePlatform app from the [Apple](#), [Google Play](#) or [Windows](#) app stores.
2. Look for your library and log in - you'll only need to do this once.
3. Search for, borrow and read or listen to any book available.

Both the ePlatform app and website allow eBooks to be read via your browser. This means users can read either **online or offline**, and have access to a full range of **display settings** so you can customize your reading experience to match their preferences. For more on this see our [browser reader information](#)

Audiobooks can be accessed just like the eBooks, but for offline listening, you will have to download the title first. To download an Audiobook you only need the ePlatform app - no extra software is required. After that you can listen to your Audiobook anywhere and anytime.
